

I am a Dietitian whose mission is to Empower Women to become the Best version of themselves!

A healthy lifestyle and eating healthy is the beginning. It's also very important to be careful of the chemicals that we put on our skin. As a dietitian, focused on Wellness, I feel very strongly about using Natural Products that are healthy for the body.

But, there are so many products on the market, it can be confusing to know which skin care products really work. It's frustrating because most products are either—

- natural and don't work, or
- work and aren't natural

Because of that I've worked with chemists and pharmacists to create products that are as natural as possible, while still maintaining the integrity of the product (won't turn rancid).

The Initial Products we've created are:

- Edorai Soft, Silky Sensual Foot Cream (my pedicurist, as well as others, can not get over how soft our feet become, and doctors are recommending it to their patients)
- Edorai 'O, So Nice!' Soothing Cream—delightful relief for aches and pains (we have a 98-99% success rate helping people with arthritis, muscle aches and pains, headaches, fibromyalgia, etc)
- Edorai O Yes Arousal Cream for Women

What I've created at Edorai and will continue to create are products that make a woman feel good, look good, love the skin she's in, feel sexier, increase her self esteem, and become the best she can be! I have also written several books, one of which is the Little Black Book of Sassy Suggestions and Guilty Pleasures which teaches Women, and gives suggestions, how to be nice to themselves each and every day!

Part of our mission at Edorai is to encourage women to ask for what they want in life, have more confidence more joy, and to have more pleasure ... become the best version of themselves.

The name Edorai—

The product line Edorai is named after the 3 women in my life who have empowered me to become my best - My Mom, Grandmother, and My daughter. In addition it is a play on words, Edorai - I adore I.

And the Snowflakes ... ah, the beautiful snowflakes. Each snowflake is unique and beautiful just like each Woman is unique and beautiful! Our hope is that the name and the snowflakes will represent the embodiment of Empowerment for Women.
